## // ABOUT ME

iOS developer with 2.5 years of commercial experience (March 2024 — September 2026). I built utility apps for iPhone with Swift and SwiftUI: screens from scratch based on design files, REST API integration, local storage with Core Data and SwiftData, and home screen widgets. I am also ready to work on web projects: landing pages and websites. I work with Claude Code.

## // WHAT I AM LOOKING FOR

- A full-time remote position: iOS development (Swift, SwiftUI) and web projects (landing pages, websites). I work with Claude Code and am happy to work in the team's time zone.
- Projects in Swift and SwiftUI where I can broaden my skill set.
- A team with code reviews, so I can grow to a middle+ level.

## // WORK EXPERIENCE

### iOS Developer

March 2024 — September 2026

**Midnight.Works · Chișinău, Moldova**

- Developed utility apps for iPhone in Swift and SwiftUI.
- Built screens from scratch based on Figma designs: navigation, loading and error states, layouts for different screen sizes.
- Integrated REST APIs: JSON parsing, asynchronous requests with async/await, network error handling.
- Stored data on the device with Core Data and SwiftData, including offline support.
- Integrated third-party services: Firebase, PushWoosh, Dropbox.
- Built home screen widgets with WidgetKit.
- Worked in a team and received tasks in Jira.

## // SKILLS

LANGUAGE & FRAMEWORKS

Swift | SwiftUI | WidgetKit | Foundation

DATA PERSISTENCE

Core Data | SwiftData

CONCURRENCY

async/await | Swift Concurrency

NETWORKING & SERVICES

REST APIs | JSON | URLSession | Firebase | PushWoosh | Dropbox

TOOLS

Xcode | Git | Swift Package Manager | Jira

DESIGN & DEBUGGING

Figma | Postman

WEB

Landing pages | websites | web projects

AI TOOLS

Claude Code
